How to enroll through the website

Enrolling takes about ten minutes on your phone. This guide shows every step with a picture, lists the documents to have ready before you start, and tells you how to reach Harrison Curry at any point.

Start here: partners.forthethepeopleinsurancegroup.com/a/harrison-curry

Questions at any point? Call or text Harrison Curry at (832) 582-1543.

What to have ready

Have these with you before you start. You photograph them with your phone inside the enrollment; the first three are needed for everyone applying, the rest only if they apply to you.

☐ **Government ID, front and back**

Driver's license, state ID or passport, for each adult applying.

☐ **Social Security card**

For each person applying. A clear photo of the card, or the number if you know it.

☐ **Proof of income**

Recent pay stubs, last year's tax return, a benefits letter, or a profit and loss statement if you are self-employed.

☐ **Loss of coverage letter**

Only if you lost coverage recently: the letter from the employer or insurer with the end date.

☐ **Employer coverage document**

Only if a job offers you coverage: the summary that shows what it would cost you.

☐ **Medicaid, CHIP or Marketplace notice**

Only if you received one: the letter, so its dates and decisions are on file.

☐ **Citizenship or immigration document**

Only if asked: a passport, naturalization certificate, permanent resident card or work authorization.

Missing one? Start anyway. Anything not on file becomes a request from your agent later, and you can add it from the same link.
